

**Loan Service of the Exhibition**  
**“The World through Picture Books -**  
**Librarians' favourite books from their country”**

<<Full view of the exhibition in the Hall of the International Library of Children’s Literature>>

The International Library of Children’s Literature (ILCL), National Diet Library offers, a loan service of the exhibition titled **“The World through Picture Books—Librarians' favourite books from their country.”**

These books were collected through a project led by the IFLA section Libraries for Children and Young Adults with the aim of making a book set of picture books recommended by librarians from around the world (for details of the project, see <http://www.ifla.org/node/6718>). As part of the project, two identical sets of books for exhibition were created – one is in the ILCL, and the other is in Bibliothèque nationale de France (BnF). The book set in Japan is available for loan free of charge to libraries in the Asian and Oceanic region.

<<IFLA Poster for the promotion of the project>>
