Bill Macnaught
National Librarian of New Zealand

What is the
impact of our
digital services?

Simon Tanner

Kings College London

<http://www.slideshare.net/KDCS/tanner-keynote-ndfnz-november-2013>

“the measurable outcomes arising from the existence of a digital resource that demonstrate a change in the life or life opportunities of the community”

www.kdcs.kcl.ac.uk/innovation/impact.html

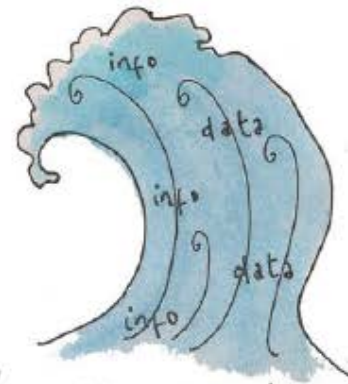

Why does Impact matter so much?

In the last 15 years £100 million has been spent in the UK on digitisation projects!

↳ Its important not to waste this investment

Welcome to the Attention Economy

the ability to attend to information in this tsunami of data & information

Curating these helps us connect with the past + invent the future...
... but **BETTER EVIDENCE** is needed

As is a **deeper, richer** method of measuring impact

Culture

The Balanced Value Impact Model

Thank you to the Arcadia Fund

Written by Simon Tanner

I wonder whats on the other channel

Just because a resource is looked at... doesn't mean its having an impact

What kind of impact do we want?*

- We are more effective and efficient in delivering change and tangible benefits (**Internal Impact**)
- Our organisation is gaining strategic advantage through the innovation inherent in this digital activity (**Innovation Impact**)
- We are delivering a strong economic benefit to our community that demonstrates the worth and value of our endeavours in clear monetary terms (**Economic Impact**)
- The community has been changed by the resource in beneficial ways that can be clearly identified (**Social Impact**)

* From Simon Tanner at NDF conference <http://www.slideshare.net/KDCS/tanner-keynote-ndfnz-november-2013>

DIGITALNZ
Ā-TIHI O AOTEAROA

Much of New Zealand's rich content is hidden or buried. We're working on new ways to create, describe, licence, store, surface & share NZ digital content.

The New Zealand Government Open Access and Licensing framework. NZGOAL for short.

Welcome to NZGOAL

With NZGOAL, the New Zealand Government has adopted the Creative Commons licences. Creative Commons Aotearoa New Zealand is pleased to be able to bring you this beta site on all things NZGOAL.

Quick guide for agencies

Get a quick overview of NZGOAL

Quick guide for users

Those wishing to re-use government

A beta production...

This NZGOAL site is being made available as a beta release and is administered by Creative Commons Aotearoa New Zealand. It is not a government owned and operated site. We know it's not yet 100% WCAG2 compliant but we wanted to get something out there that agencies can start using, particularly given the imminence of the awesome Mix and Mash Competition for

Supreme Storytelling Awards announced!

Also, check out the Mix & Mash exhibition of winners from over the competition's history, now showing at the National Library.

1. Welcome to 100 Companies.

This infographic has two main goals. The first is to help dispel some myths surrounding the ways in which New Zealand can become prosperous, and the second is to help us ask the question "What should we invest our future in?"

100 Companies based on Sir Paul Callaghan's [StrategyNZ keynote](#) and the visualisation is highly interactive, so please play around with New Zealand's Virtual Economy and enjoy.

We measure the prosperity of New Zealand through our Gross Domestic Product (GDP) per capita, average hours of work per week and average annual wage.
